

WIAL Certification Program

Certified Action Learning Coach

This program is your answer to...

- Team coaching
- Problem-solving for individuals, teams, and organizations
- Real-time leadership development
- Transformative breakthroughs

What is Action Learning?

- A process of insightful questioning and reflective listening.
- Tackles problems through a process of first asking questions to clarify the exact nature of the problem, reflecting and identifying possible solutions, and only then taking action.
- Questions build group dialogue and cohesiveness, generate innovative and systems thinking, and enhance learning results.

WIAL Certification Program

Past AL participants

- "AL emphasized the importance of ensuring alignment on the problems to solve. I learned a lot."

- "It was fun working with a diverse cohort with their different train of thoughts and way of looking at a problem, culminating in a cross-pollinated solution."

From your Instructor

WIAL has provided a framework that can easily be implemented across many situations to get the most out of individuals and teams. We all know that continuous learning is one of the keys to success.

Action Learning allows for the efficient integration of continuous learning into organizational routines while solving relevant problems. Whether I am coaching an intact team or a group of individuals brought together to solve a problem, I'm always pleased to see the learning and interpersonal connections that take place in the process. I look forward to sharing this passion with you.
